PARDON is a handwriting font with a confident look. The first approach was to give the impression that someone was holding the pen with their toes while writing.

Paradoxically, this typeface is called »Pardon« (French: asking for forgiveness). But actually PARDON would never be sorry, because it would like to be taken as it is.

This typeface is intentionally a failure. It is multipersonal, nonconformist, bold, original and eccentric. Nothing is standard here, which is absolutely fine.

Imperfection and disproportion are the mainspring of an unconditional passion. Openness is celebrated here without measure.

PARDON 4-by-4 is a single weight font but has an extremely wide range of characters. There are four different alternates for each uppercase and lowercase letter, which is very special. There is also a huge selection of numbers, arrows, icons and special characters, which are also freaks.

PARDON will add a confident and peculiar feel to your work, even if you haven't tried all the 4x4 options that PARDON has to offer.
