**PARDON**

PARDON is a carefully crafted handwriting font with a confident look. The approach is to give the impression that someone is writing while holding the pen with their toes.

Paradoxically, this typeface is called »Pardon«. But actually PARDON would never be sorry, because it would like to be taken as it is.

This typeface is intentionally a failure. It is multipersonal, nonconformist, original and eccentric. Nothing is standard here, which is absolutely fine!

Imperfection and disproportion are the mainspring of an unconditional passion. Openness is celebrated here without measure.

PARDON 4x4 is a single weight font but has an extremely wide range of characters. There are four different alternates for each uppercase and lowercase letter, which is very special. There is also a huge selection of numbers, arrows, icons and special characters, which are also freaks. Find a special expression to your individual intend.

PARDON will add a confident and peculiar feel to your work, even if you haven’t tried all the 4x4 options that PARDON has to offer.
